

# (1) GEEDEE REALTY SYSTEMS PTY LTD HARDWARE & OPERATING SYSTEM REQUIREMENTS

801 Canning Highway, Applecross WA 6153  
Telephone (08) 9364 6677 Fax (08) 9364 7433  
E-mail: [support@geedee.com.au](mailto:support@geedee.com.au)

## Operating Systems

The program will run under Microsoft Windows 98x/Me/NT/Win2K/2003/Vista or XP Pro (**Not XP Home over a Network**). If you have MS Windows DOS, 3.1/95, XP Home or UNIX, you will need to upgrade your hardware and/or software.

## Hardware Requirements: (Also refer to GeeDee Realty Systems PTY LTD Technical Instructions).

The Minimum requirements for a single user system	
A fast CPU (processor as fast as you can afford).	A sound card and a CD-ROM drive for the GeeDee Tutorial.
Mouse, keyboard & monitor.	A 56Kbps modem or high speed ADSL, ISDN, Cable etc.
256MB memory.	3.5" Floppy Drive. (Optional ZIP/CDRW Drive for backups).
3.0Gig of disk space (minimum), +5.0Gig recommended.	Additional Printer Ports (LPT) may be required.
An Inkjet or Laser printer recommended (if over 50 properties).	
<b>NOTE:</b> - When ordering your Receipts & Cheques be sure that they conform to the GeeDee recommended format (See samples enclosed!). Receipts <b>MUST NOT</b> be numbered as the numbering is carried out automatically by the GeeDee System.	
Symantec pcAnywhere Version 9-12x. Version 10.5 - 12.1 for MS XP Pro - Vista. (See below for pcAnywhere Pricing).	

## For a Multi-user system, the following minimum is recommended:

The Main Server	
A fast CPU (processor as fast as you can afford).	A sound card and a CD-ROM drive for the GeeDee Tutorial.
Mouse, keyboard & monitor.	A 56Kbps modem or high speed ADSL, ISDN, Cable.
512Mb of memory.	3.5" Floppy Drive. (Optional ZIP/CDRW Drive for backups).
3.0Gig of disk space (minimum), +5.0Gig recommended.	Additional Printer Ports (LPT) may be required.
High speed network card. (Hub/Switch recommended).	An Inkjet or Laser printer recommended (over 50 properties).
Symantec pcAnywhere Version 9-12x. Version 10.5 - 12.1 for MS XP Pro - Vista. (See below for pcAnywhere Pricing).	

The Workstations	
A fast CPU (processor as fast as you can afford).	A sound card and a CD-ROM drive for the GeeDee Tutorial.
Mouse, keyboard & monitor.	A 56Kbps modem or high speed ADSL, ISDN, Cable.
256Mb of memory.	3.5" Floppy Drive. (Optional ZIP/CDRW Drive for backups).
3.0Gig of disk space (minimum), +5.0Gig recommended.	Additional Printer Ports (LPT) may be required.
High speed network card. (100/1000Mbps).	An Inkjet or Laser printer recommended (over 50 properties).
Symantec pcAnywhere Version 9-12x. Version 10.5 & 12.1. for MS XP Pro - Vista. (See below for pcAnywhere Pricing).	

Other Information	
If you will be operating a network, a network hub or switch will make cabling simpler. Avoid wireless networks due to the large amount of data processed.	
For large installations (over 4 machines), the "MS Windows NT/2K/XP Pro/2003/Vista" operating system is recommended.	
Bubble-jet printers are cheaper & produce a good quality image (suitable for systems up to 50 properties).	
It is useful to order a machine with 2 or 3 parallel (printer) ports, so additional printers can be easily attached to main PC.	
<b>NOTE: NEVER USE A PRINTER SWITCH BOX.</b>	

## Purchase pcAnywhere from GeeDee Realty Systems PTY LTD
